ORANGE SPRINGS

Orange Springs, May 19.—The good rains of last week helped the farms and gardens of this neighborhood very much. We also had a good rain Tuesday of this week. On the Oklawaha river near here there was a considerable storm on Tuesday.

Wednesday of last week the Woman's Club gave a picnic which was enjoyed by a good crowd, even though the rain interrupted some of the fun. A bunch of men and boys in the morning fixed up the big white sulphur spring by putting in a good dam and thereby enlarging and deepening the basin. We need more public spirited citizens who will take pride enough in our town to help beautify and improve it. The chief asset of Orange Springs is its fine water. The big white sulphur spring is fine drinking water and its large basin makes a delightful swimming pool. Then there is a small spring which furnishes excellent drinking water of white sulphur and magnesia.

Mrs. Fudge of Atlanta visited Newton Wimberly last week. Mrs. Fudge was a Miss Hewey and her childhood days were spent here. Her father at one time owned a very large hotel here. That was in the days before the war, when Orange Springs was the great summer resort of this section.

Last Friday night Prof. Larson entertained informally a number of his friends. Much good music and dancing were enjoyed by the guests.

Mr. J. W. Ford and wife have a new baby at their home.

Rev. Mr. Roland will begin a series of revival services at this place next Monday night, May 24th. The presiding elder for this district will be with the congregation on that night. He may remain for several days.

Quarterly conference for this charge will meet at the Methodist church in this place Monday night, May 24th. The people of the community are invited to attend services on that date. Service begins at 7:30 p. m.

The Carlton House under new management has taken on a new name. It is known now as Homeplace Hotel. Being a big roomy building whose manager aims to make it a home in reality for the traveler, this name is well suited to the place.

Mrs. Manson and daughter leave here tomorrow for their home in the north. This is the third winter they have spent in Orange Springs.

Mr. Salvason is taking from his incubator a fine hatch of pure bred Ancona chickens. Our farmers are more and more realizing the value of pure bred fowls, stock, cattle and hogs.

Some of our progressive truckers are shipping beans from this point. (Correspondent will please use a pen or a black pencil. This letter was almost too dim to read.—Editor)
